DETAILED ACTION

1. Claims 1-57 are allowed.
2. The following is an examiner's statement of reasons for allowance: the prior art of the record particularly fails to teach or fairly suggest in combination with the other elements and features of the claimed invention regarding claims 1-39, a software object approval method and a system for use in a safety instrumented system, comprising: receiving from each entity within the group of entities an electronic indication regarding an approval or a disapproval of the software object and preventing the implementation of the software object in the safety instrumented system until each entity within the group of entities provides an electronic indication approving the software object and regarding claims 40-57, an approval system for use in a process control or safety instrumented system in a process plant having one or more processors, comprising: a first routine stored on the computer readable medium and adapted to be executed on the one or more of the processors to electronically transmit a request for review of the software object to each entity within a group of entities in response to a change being made to the software object and a second routine stored on the computer readable medium and adapted to be executed on the one or more of the processors to prevent implementation of the software object in the process control or safety instrumented system until each entity within the group of entities provides an electronic indication approving the software object.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
